

Stakeholder Teleconferences for 2010 Budget and Policy Recommendation Process

Please share your thoughts, ideas, and comments with the Advisory Board on Alcoholism and Drug Abuse and the Alaska Mental Health Board during one or more of our Stakeholder Teleconferences.

Call 1-800-315-6338 and use code 8920 for all teleconferences.

The goal of these teleconferences is to hear from you about what budget and policy recommendations AMHB and ABADA should make for the 2012-2013 fiscal years. We need your help to make sure that the recommendations made are relevant and helpful to you and your communities. **Everyone is welcome at all the teleconferences**, though we have tried to focus on a particular group of stakeholders for each. Provider teleconferences are for **all prevention, treatment, and recovery services providers**.
